DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Saturday, May 11, 1850.

STEAMER EDITION.—We shall issue on Tuesday morning an edition of the "Pacific News" for the steamer. It will necessarily be limited, owing to the shortness of the time before the sailing of the Isthmus on the 15th. Orders must be left early.

The Practice Act.

We have received, on sale, a few copies of "An Act to regulate proceedings in civil cases in the District Court, the Superior Court of San Francisco, and the Supreme Court." Gentlemen of the bar, and others desiring to obtain copies, will find them at the desk of this office. The number published over and above the State edition is understood to be limited.

Municipal Salaries.

In view of the duties incumbent upon those who fill the various official functions under our city charter, there is nothing more delicate to the incumbent, nor yet more just to the public and themselves, than the proper compensation which should be allowed to those who perform the task of setting in motion the machinery of our city government. Under our late system of rulers, there was no precedent to guide in this matter, but the advantages which certain positions held out for speculative purposes, or the equitable ratio of other employments in the community.

Under our present charter, the Common Council are the legislators who devise and put in force such a code as shall answer the domestic regulations of this growing emporium. In doing this, much responsibility is borne by those of our citizens who may be selected to compose the members of that body. If they perform their duties diligently, the time engrossed from usual pursuits, must seriously inconvenience many of the active relations of business. The Council being composed of but few persons, the various committees upon which each individual must devote his attention, renders it necessary that much more time shall be spent in multifarious investigations of municipal affairs, than what is apparent to the general notice of the community. They set as arbiters upon the value of all services performed by official incumbents of the city, and devise the sources of municipal revenue.

So far as the Council have developed their views in regard to official compensation, at their last sitting, we think they have consulted a just and moderate medium. We believe the community are disposed to sanction the payment of liberal salaries to those who devote their time to the public service. In consulting a too rigid economy in the pay of public officers, a relaxation from close and attentive duty must necessarily follow—and in the end the community are the losers by an unwise parsimony.

To have our city legislation well performed, there is nothing more necessary than to have our best citizens to feel no hesitation in being called to serve as members of the Common Council. Time is too valuable in California to be long abstracted from private business, without making serious encroachments upon the best founded estate; and competent men will not long be found who will serve as the municipal legislators, unless they are compensated like other public servants, for their labor. Indeed, not to establish a compensation for services in the Common Council, will give the monopoly of that body to the wealthy speculator alone, who may take the position to subserve his own private ends. The competent citizen of moderate means, or of no fortune, will be as effectually excluded as if he was incompetent by stated law.

In view of this, we believe it will be to the interest of the city, and justice to themselves, (if they continue to work as diligently as they have commenced) that the Common Council shall establish a stated compensation for serving in their body. We hope no delicacy will deter them from establishing such a rate of pay as will justify them for the closest attention to duty, as well as enable the community to call upon our best citizens at all times, irrespective of fortune, to come forward and fill their places, when common vicissitudes shall again throw the present incumbents back into the walks of private life. We have given these opinions forth with a sincere desire to see the city governed prosperously, and we think the citizens generally acquiesce in the justness of these views.

Steamer Chesapeake.

It is well known that the steamer Chesapeake left Panama on the 2d of February last with some three hundred and fifty passengers for this city. She has now been out one hundred days. The last account we had of her, she was at Cape St. Lucas, where she had been forced to stop to procure fuel. It is evidant she did not take on board at Panama a sufficient supply of water and provisions for one hundred days. It is therefore reasonable to suppose that her passengers must be suffering for some of the necessaries of life, unless they have been fortunate enough to obtain fresh supplies at the Cape. How far it is practicable to do this, we do not know. Probably the only supply the people there could furnish would be beef, as this is the staple article of food among the people along the coast, and in what quantities even this could be obtained is a matter of doubt. However plentiful the supply might be, the absence of other food must produce consequences almost as fatal as the want of all kinds of provisions; as it is well known that the use of beef by persons who have been confined a long time on ship board almost invariably produces disease.

It is known also that there are a considerable number of children and females on board, upon whom such calamities fall with overpowering weight.

These being the facts in the case, ought not something to be done? Could not the Collector of the port, or the Commodore of the naval force of the Pacific, take steps to afford the Chesapeake relief? If the steamer Massachusetts is in the Bay, (as we believe she is,) might she not be sent on this errand of mercy?

Possibly the consignees of the Chesapeake at this port may have more definite information of the whereabouts and condition of this steamer than is in possession of the public. We sincerely hope the fears which many of our citizens entertain of the safety of the vessel and her passengers may prove groundless; but the facts are certainly strong enough to warrant action on the part of somebody,—of the navy, or the citizens of San Francisco—to afford relief, if relief is required, and relieve the public from this state of suspense.

Mails by the Isthmus.

Since the statement made by us yesterday morning, that there would be *no mail* dispatched by the steamer Isthmus, which was derived from proper authority, an arrangement has been made by the Postmaster with the Agent of this line, and we are now authorized to say that a mail will be sent *on the 15th* by that steamer. This will be a great accommodation to the public, and exhibits in a favorable light the efforts of the Postmaster to subserve their interests. The Isthmus will reach Panama in time to connect with the regular mail steamer that is to leave Chagres on the 13th of June, reaching New York about the 23d of that month.

Persons sending by this steamer must endorse their letters and papers "per Isthmus."

TRUE CHARITY.—A day or two since our columns contained a card of sincere acknowledgement by the Hon. Jno. W. Geary to Dr. Manuel A. Rodriguez de Poli, for his devotion to the suffering and sick in our city, during last winter.—With a disinterestedness having no parallel in these fortune-making times. Dr. de Poli landed upon our shores at a time last fall when the city authorities had not the means to prepare for those who might need a shelter during sickness to the extent required. Dr. Poli established an asylum, and without money or price, took in and administered to the wants and necessities of every creed and nation; and thus he has continued to do, until an entire expenditure of all his means in this noble work, compelled him to call upon the city authorities and resign into their hands those whom he could no longer find the means of aiding.

The Doctor stands among the first in his profession, and we think it but just and proper that if the city shall make arrangements for supporting a hospital, Dr. Poli should be among the first to be solicited to be a member of its official organization. Dr. Poli devotes himself to the healing art alone as a christian pursuit, and does not intend to realize any accumulation whatever from its practice.

FOR OREGON, &c.—The steam propeller Carolina, which was advertised for the 15th instant, will be detained till after the arrival of the Oregon with the April mails from the States. This is an excellent arrangement, and will give the citizens of Oregon reason to be satisfied with the appearance of the *first mail steamer* on the waters of the Columbia. We are glad to see these mail and commercial facilities extended on the Pacific, and we are certain that so far as the Agent of the Aspinwall line is concerned, nothing will be omitted to serve the public interests. For particulars see the Agent's advertisement in another column.

DROWNED.—George Foules, a native of Micherhampton, England, fell overboard from ship Cygnet on Thursday last and was drowned.

From Australia.

By the kindness of a friend, we have been put in possession of several numbers of the "Daily Argus," of Melbourne, Port Philip, of dates during the latter part of January. They contain no particular news beyond the usual political agitations of the Colonies. We extract a couple of articles from the files, one of which is significant of the kind of characters the better people of that country wish to foist upon us. Here it is:

GOOD NEWS.—OFF TO CALIFORNIA.—A notorious vagabond, while being tried at the police office on Saturday, on a charge of vagrancy, admitted that he had been a vagabond some years ago, but that for some time he had been getting an honest livelihood in the Bush. The detectives proved that, since he had been in town, now some months, he had been the constant associate of notorious thieves and prostitutes. The prisoner admitted the soft impeachment, but announced that he had come to town for the purpose of going to California, and that several of his companions were going with him. We are desirous of encouraging this sort of emigration, and have confident hopes that it will be pretty nearly confined to such a class.

From a commercial retrospect of Sydney, made up at the end of the year, we extract the following:

CALIFORNIA.—The most stirring event that has happened to us, is the trade that has suddenly sprung up with California, which commenced early in January, and has continued to increase to the present moment; the first effect was to clear our stores of old and unsaleable stock, but afterwards it began to drain us of cash, and to induce a considerable number of our industrious class to leave us, which has seriously affected society. It remains to be seen whether this year we shall receive back a sufficient equivalent for our present loss.

Emigration and Convicts: To counterbalance the loss of numbers thus sustained, we have been favored with a large increase of immigrants, exceeding eight thousand souls; besides which, several hundreds of convicts have been forced upon us by the irresponsible home government, in spite of all remonstrances; forming us once more into a penal state, and injuring us in the opinion of the people at home, who will doubtlessly be deterred from joining us.

Eight vessels had arrived from, and forty departed for California.

Oregon.

We have dates from Oregon City up to April 18th. The interesting items below are copied from the Spectator. Marine and commercial news may be found under the proper head.

The following extract from a letter from Capt. N. Crosby, jr., to Capt. John H. Couch, in relation to the South Channel, affords most gratifying intelligence.

Bark Louisiana, Feb. 27, 1850.—We are outside the bar, came out through the south channel, the least water we had was *five* fathoms with a tremendous sea on. The course out is about S. S. W. from Sandy Island and the channel is of sufficient width to beat a frigate. On the north channel it is now breaking a clear foam. *This* channel is *straight* and with the exception of the bar is not less that seven fathoms water. Capt. White has done and is doing more for the mouth of the Columbia than all the surveying and exploring expeditions that ever came out here. Do all you can to encourage their remaining here. If necessary, raise their pilotage higher—say $2 per foot higher. Their expenses are very high. They are doing more for the commerce of Oregon than all the other persons in the Territory.

We lay three days at anchor at Tanzy Point, Clatsop, with a heavy gale from S W to N, and find it an excellent harbor, good holding ground and true tides—far superior to Bakers.

Agricultural.—We are happy to learn that the farmers throughout the Territory are actively engaged in putting in crops. We are assured, on good authority, that the amount of grain in the ground is nearly, if not altogether, twice as great as it was last year. And from the general demand for seed potatoes we should think, if the season proves favorable, that potatoes would be cheaper next fall than they are at present.

Steamboat Ahoy!—We learn that the machinery for a steamboat has arrived at Astoria, accompanied by the workmen and engineers, to construct and run it. It is contemplated to have it running at the earliest possible period.

Attempted Suicide.—We learn that Maj. J. S. Hathaway, U S A, attempted, a few days since, to take his own life by cutting his throat. As we are informed, he was impelled to the appalling act by delirium tremens, or at least, mental derangement, produced by the excessive use of intoxicating spirits. He was, however, arrested in the act, and hopes are entertained of his recovery.

MORE LUMPS.—The following extract from a letter just received from a gentleman in Stockton bears a very strong presumption that there are a few more lumps of the same kind left for the enterprising. The Southern mines are looming up, and no one need be astonished to find them yielding the most abundantly of any of our *placeres*, during the coming summer and fall.

"I learn but this moment from a gentleman just from the Sonoranian Camp, that an American dug another twenty-three pound piece of gold there two days since. It contained between three and four pounds of quartz.

"I have seen to-day several very large pieces of quartz and gold, one weighing upwards of forty pounds. The gold appears in it in veins, the most beautiful I have ever seen."

GOLD HUNTER.—We learn by a passenger that, notwithstanding a strong adverse gale, this splendid boat made her down trip in 8 1-2 hours.

BERFORD & Co.'s EXPRESS.—Although burnt out with an entire loss of books and accounts to the amount of $4000, together with all letters in their possession, waiting for delivery, the enterprising proprietors are ready to accommodate their friends and patrons upon the same terms as heretofore. They can be found for the present at Pendleton & Co.'s, corner of Clay and Kearny street.

SALE OF REAL ESTATE THIS DAY.—There is to be a sale of real estate at 10 o'clock to-day at the auction room of R. Meacham, consisting of valuable property at the corner of Clay and Kearny streets, belonging to Messrs. Finley, Johnson & Co.—and lots in other parts of the city, together with several iron houses. It is a sale worthy the attention of capitalists and the public.

AGENCY OF THE NEW YORK TRIBUNE.—Messrs. Still & Connor, Periodical Booksellers and Newsmen (store under the St. Francis Hotel) are authorized to receive subscriptions for the Daily, Weekly, and California editions of the TRIBUNE. The latest copies of this popular newspaper will always be found at their news room, together with all others from the Atlantic cities.

THE WATCHMAN.—A supplement to this periodical will be issued this morning from the office of the Journal of Commerce. It contains a discourse delivered by the Rev. Albert Williams, entitled "Personal Responsibility in its relation to the public welfare," delivered in the First Presbyterian Church, on Sunday, the 5th of May, on the occasion of the great fire the day previous. We shall take occasion to refer to this sermon again.

☞ The First Presbyterian Church will hold public worship to-morrow, in the Superior Court room, City Hall. Services at 11 o'clock, A.M., and at 6 P.M.

COMMERCIAL NEWS.

SAN FRANCISO MARKETS.
Friday Evening, May 10.

Lumber and building materials are considerably in request. Sales of lumber have been made to-day at $28, by parties compelled to sell for payment of freight; same quality was also sold to-day, at $80—being purchased from the yard, and purchaser preferring to pay an advanced price, rather than spend time in looking through the market. Sales at widely different prices are constantly being made under these circumstances. Vinegar is in request, and the supply on hand light. A large quantity brought to-day an average of 62½c. Prime cigars are particularly in demand at $55a65. The quotations for sugars, 28a33c, coffee 27a32c, dried apples, 30a35c; lard, 37½c, remain without material change. The flour market is firm, holders asking $13a13.50 for whole sacks; $6.75a$7 for hf sacks; $3.50 a$4 for qr sacks. We have heard of no heavy transactions to-day. Butter and raisins, in considerable quantities, are coming into the market by recent arrivals, and we look for a decline in prices. Oregon is held at an advance of 10 cts over that imported from the States.

OREGON MARKET. April 18—Most articles in the provision line have stood firm at former prices for the past month. Flour has receded to $20 per bbl. Lumber has also receded to $75a80 per M. Potatoes have advanced in consequence of the demand for seed; sales have been made as high as $7 per bushel. Gold dust sells at $15.50 in coin and $16 in trade.

NEW DAILY Evening Paper in san Francisco—ROBERT D. FOX proposes to establish a daily newspaper in the city of san Francisco, to be issued every afternoon. The design of the paper will be to afford a reliable medium of information on all subjects of general and local interest; also to give full and accurate commercial and shipping intelligence up to the hour of publication each day. In a commercial community like ours, the utility of an evening paper, that will place the transactions of the day before the public immediately, must be apparent.

While the principal aim will be to give to the patrons of the proposed paper all the advantages of a strictly business publication, it should be understood that on questions of a political character, it will always be found a decided advocate of the principles and measures of the great democratic party of the Union.

The first number will appear on or about the first day of June next.

TERMS—$25 per annum, when delivered to city subscribers at their residences, or $20 when mailed—payable in advance. Advertisements inserted at the usual rates. cxl tf

AN ACT

FOR THE BETTER REGULATION OF THE MINES AND THE GOVERNMENT OF FOREIGN MINERS.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No person who is not a native or naturalized citizen of the United States, or who may not have become a citizen under the treaty of Guadaloupe Hidalgo, (all native California Indians excepted,) shall be permitted to mine in any part of this State, without having first obtained a license so to do according to the provisions of this Act.

Sec 2. The Governor shall appoint a Collector of licenses to foreign miners for each of the mining counties, and for the county of San Francisco, who, before entering upon the duties of his office, shall take the oath required by the Constitution, and shall give his bond to the State with at least two good and sufficient sureties, conditioned for the faithful performance of his official duties, which bond shall be approved by the Governor and filed in the office of the Secretary of State.

Sec. 3. Each Collector of licenses to foreign miners shall be commissioned by the Governor.

Sec. 4. It shall be the duty of the Comptroller to cause to be printed or engraved a sufficient number of licenses, which shall be numbered consecutively, and shall be in form following, to wit:

"Number , (Date.) A. B., a citizen of , age years, complexion , is hereby licensed to work in the mines of California for the period of thirty days."

The Comptroller shall countersign each of such licenses, and shall transfer them to the Treasurer, keeping an account of the number so transferred.

Sec 5. The Treasurer shall sign and deliver to each Collector of licenses to foreign miners so many of the licenses mentioned in the preceding section as he shall deem proper, and shall take his receipt for the same and charge him therewith. Such Collector and his sureties shall be liable upon his bond for the number so furnished him, either for their return or the amount for which they may be sold; and the moneys collected, as herein provided, shall be paid into the treasury as prescribed in this Act.

Sec. 6. Every person required by the first section of this Act to obtain a license to mine, shall apply to the Collector of licenses to foreign miners and take out a license to mine, for which he shall pay the sum of twenty dollars per month; and such foreigners may from time to time take out a new license, at the same rate per month, until the Governor shall issue his proclamation announcing the passage of a law by Congess, regulating the mines of precious metals in this State.

Sec. 7. If any such foreigner or foreigners shall refuse or neglect to take out such license by the second Monday of May next, it shall be the duty of the Collector of licenses to foreign miners of the county in which such foreigner or foreigners shall be, to furnish his or their names to the Sheriff of the county, or to any Deputy Sheriff, whose duty it shall be to summon a *posse* of American citizens, and, if necessary, forcibly prevent him or them from continuing such mining operations.

Sec. 8. Should such foreigner or foreigners, after having been stopped by a Sheiff or Deputy Sheriff from mining in one place, seek a new location and continue such mining operations, it shall be deemed a misdemeanor, for which such offender or offenders shall be arrested as for a misdemeanor, and he or they shall be imprisoned for a term not exceeding three months, and fined not more than one thousand dollars.

Sec. 9 Any foreigner who may obtain a license in conformity with the provisions of this Act, shall be allowed to work the mines anywhere in this State, under the same regulations as citizens of the United States.

Sec. 10. It shall be the duty of each Collector of licenses to foreign miners to keep a full and complete register of the name and description of all foreigners taking out licenses, and a synopsis of all such licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall be endorsed by the Collector selling or issuing the same, and shall be in no case transferable; and the Collector may retain out of the money received for each licese, the sum of three dollars, which shall be the full amount of his compensation.

Sec. 12. Each Collector of licenses to foreign miners shall, once in every two months, and oftener, if called upon by the Treasurer, proceed to the seat of government, settle with the Treasurer, pay over to that officer all moneys collected from foreigners not before paid over, and account with him for the unsold licenses remaining in his hands.

Sec. 13 If any Collector shall neglect or refuse to perform his duty as herein provided, it shall be the duty of the Comptroller, upon receiving a notice thereof from the Treasurer, to give information thereof to the District Attorney in whose district said officer may have been appointed, who shall bring an action against such Collector and his sureties upon his bond, before any court of competent jurisdiction; and upon recovery had thereon, the said District Attorney shall receive for his services ten per cent. upon the amount collected, the balance to be paid by him into the treasury in the manner provided by law for like payments.

Sec. 14. It shall be the duty of the Governor, so soon as he shall have been officially informed of the passage of a law by the United States Congress, assuming the control of the mines of the State, to issue his proclamation, requiring all Collectors of licenses to foreign miners to stop the issuing of licenses.

Sec. 15. It shall be the duty of the Governor of State, immediately after the passage of this Act, to have two thousand copies each, in English and Spanish printed and sent to the mining districts for circulation among the miners, and also to have the same published for thirty days in the Pacific News at San Francisco, and in some newspaper at Sacramento City and at Stockton.

JOHN BIGLER,
Speaker of the Assembly.
JOHN McDOUGAL,
Lieut. Governor and President of the Senate.

Approved, April 18, 1850
PETER H. BURNETT.

Office of Secretary of State,
SAN JOSE, April 13, 1850.

I hereby certify that the foregoing is a true copy of an original Act, now on file in this office. W. VAN VOORHIES,
Secretary of State.

ELECTION NOTICE.

STATE of California, county of San Francisco, ss:—In pursuance of the provisions of an act passed by the Legislature of this State, on the 11th day of April, 1850, entitled, "An act concerning Offices," it is ordered and determined that said county be districted and divided as follows:

The First District to be constituted of all that part of the county lying northwardly of a line commencing on the bay of san Francisco and running through the centre of clay street to the western boundary of said county.

The Second District to be constituted of all that part of the county lying southwardly of the said line through clay street.

It is further ordered that two Justices of the Peace and one Constable be assigned and elected for each of said townships, and a county Attorney be elected for the county at large, at an election to be held on the 11th day of May, instant.

The poll of the first district to be held at the Graham House.

The poll of the second district to be held at the yellow house on the south side of california street, and between Kearny and montgomery streets.

Each of said polls to be opened at eight o'clock, A. M., and closed at the setting of the sun.

The order for said election, made on the first day of May, instant, is hereby rescinded. Dated, san Francisco, this 7th day of May, 1850.

Roderick N. Morrison.
8 County Judge.

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.

cxxxii tf Durfee & Townsend.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Cresent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E Perrine, J. B. Lattimer.
